PROFESSIONAL SUMMARY

MCA student and React.js Frontend Developer with hands-on experience building three end-to-end web applications spanning ecommerce, food delivery, and AI-powered chat. Skilled in component-based architecture, RESTful API integration, state management (Hooks, Context API), and responsive UI design. Strong foundation in JavaScript (ES6+), OOP, DBMS, and Computer Networks. Seeking a Frontend Developer role to build scalable, high-performance, user-centric web applications.

TECHNICAL SKILLS

Frontend Development: React.js, JavaScript (ES6+), HTML5, CSS3, React Router, React Hooks, Context API, Responsive Web Design

Programming Languages: JavaScript, Python

Tools & Platforms: Git, GitHub, VS Code, Gemini API

CS Fundamentals: Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

PROJECTS

Food Delivery App | React.js, HTML5, CSS3, JavaScript (ES6+)

Jun 2025

- Built a responsive food delivery web application with user authentication, restaurant browsing, dynamic cart, and end-to-end order placement flow.
- Designed reusable, component-based UI using React.js, managing cart and session state with Hooks and Context API.
- Integrated RESTful APIs to fetch menu data, manage user sessions, and track order status in real time.
- Developed mobile-friendly, cross-device responsive layouts with CSS3 for a smooth ordering experience.

E-Commerce Website | React.js, HTML5, CSS3, JavaScript (ES6+)

Nov 2025

- Developed a feature-rich e-commerce platform with product listings, category filters, search, cart, and secure checkout flow.
- Built a role-based admin dashboard in React.js for inventory management and order tracking.
- Implemented client-side authentication and protected routes using React Router with JWT token handling.
- Optimized application state management using React Hooks and Context API, improving UI responsiveness.

Gemini AI Chat App | React.js, Gemini API, HTML5, CSS3, JavaScript (ES6+)

Apr 2026

- Built a real-time conversational chat application in React.js that integrates Google's Gemini API to generate AI-powered responses to user queries.
- Designed a component-based chat interface with message bubbles, typing indicators, and auto-scrolling conversation history for a smooth user experience.
- Managed conversation state and chat history using React Hooks and Context API, enabling seamless multi-turn interactions.
- Implemented secure API request handling to send user prompts to the Gemini API and render streamed AI responses in real time.
- Added responsive, mobile-friendly UI styling with CSS3 and error handling for failed or delayed API responses.

EDUCATION

Master of Computer Applications (MCA) — CGPA 8.6

Aug 2024 – 2026

Guru Gobind Singh Indraprastha University, Delhi

Bachelor of Computer Applications (BCA) — CGPA 8.3

Dec 2020 – May 2023

Guru Gobind Singh Indraprastha University, Delhi

CERTIFICATIONS

- Programming with Python — Internshala (2024): Python fundamentals, OOP, file handling, and applied programming.
- Python for Data Science — IBM SkillsBuild (2024): Data analysis, NumPy, Pandas, and foundational data science workflows.
- Introduction to Cybersecurity — HP (2026): Digital threats, network security, data protection, and online safety.
